

JOURNEYMAN ELECTRICIAN- METERING POSITION

ABOUT THE COMPANY

Cascade Energy Engineering is a small but growing group of energy engineers, program managers, and program administrators specializing in industrial energy efficiency. We provide targeted energy analysis for capital projects funded by electric and gas utility incentive programs as well as comprehensive corporate energy management services and utility program management. Founded in 1993, our work has spread from the Pacific Northwest to most of North America.

Cascade is looking for an experienced Journeyman Electrician to join our rapidly growing Energy Management business in Portland, Oregon. Cascade Energy provides Corporate Energy Management services to large energy intensive industrial facilities (food processing, distribution, cold storage, and manufacturing). Cascade's services include: energy meter monitoring, commissioning (Facility Tune-ups), utility bill & production data tracking and normalization, ongoing technical follow-up, capital improvement studies, high level program planning and support, and regular performance reporting.

Please see www.cascadeenergy.com for further information about who we are and how we work.

ABOUT THE POSITION

The Metering Electrician will perform installations and calibrations of metering equipment in industrial settings throughout the US under the direction of our Supervising Electrician. We are looking for a self-motivated individual who enjoys digging into and working through interesting new challenges in partnership with the Energy Management team, customers, general contractors, and the engineering staff.

COMPENSATION

The successful candidate for the Journeyman Electrician-Metering position will receive a competitive salary with bonus potential as well as excellent benefits.

APPLICATION PROCESS

To apply please submit an application via the Careers Page of our website at www.cascadeenergy.com. Include an updated resume and at least two professional references. Incomplete applications will not be considered.

*All offers of employment are contingent upon successful completion of a background check, physical, and drug screening.
